

Summary of revisions made to the Red Lake River One Watershed One Plan amendment of the plan based on comments received prior or at the hearing.

December 19, 2018

- 1) Comments from Minnesota Department of Natural Resources were read into the record (See attachment). There was no revision to the plan were requested.
- 2) HDR Engineering presented the information concerning the Water Management Funding for the Thief River Falls Westside Flood Damage Reduction Project. Please find the requested clarification of additions to the formula submitted during the hearing.

The formula used for determining the total charge is as follows:

*Parcels outside of the City of Thief River Falls are capped at a maximum assessment of 20 acres per parcel.

*The minimum LSF within the City limits is 2.0 due to urban impervious surface and associated drainage benefits provided by the Project.

After presentation was completed and hearing closed, the Policy Committee approved the changes in their motion to accept the Findings and Recommendations.
