RE: Red Lake River Comprehensive Watershed Management Plan "Other Waters" map

Last summer, SWCDs were required to adopt an "Other Waters" map for inclusion into their local water plan. The Red Lake River One Watershed One Plan Policy Committee decided to use consistent criteria for the "Other Waters" map within the planning area. SWCD, Watershed District, and County staff developed an "Other Waters" map that was approved by the Red Lake River One Watershed One Plan Policy Committee. According to Minn. Stat. 103F.48 subd 4. SWCDs are required to consult with the local water management authorities and provide these summaries for inclusion into the local water plan.

The "Other Waters" map was approved to be incorporated into the plan as an addendum. Notice is being provided to the agencies, organizations and individuals that are required to receive a copy of the plan changes. There were no other changes to the Red Lake River Comprehensive Watershed Management Plan beyond incorporation of the "Other Waters" map.

Regards,

A handwritten signature in black ink that reads "Peter Nelson". The signature is written in a cursive style.

Peter Nelson
Water Plan Coordinator
